

Rosana Empowerment Foundation (REF) Key Evaluations

Rosana Empowerment Foundation (REF) is committed to ensuring the impact and effectiveness of our programmes through rigorous and regular evaluations. These evaluations help us understand our successes, identify areas for improvement, and ensure accountability to our stakeholders. Below are some key evaluations that demonstrate our dedication to continuous improvement and transparency.

1. Early Child Learning Advancement Programme (E-CLAP) Evaluation

Date: July 2023

Objective: To assess the effectiveness of the Capacity Building Workshop held in Bauchi, focusing on the use of the mother tongue in early childhood education.

Methodology: Mixed-methods approach including surveys, focus group discussions, and classroom observations.

Key Findings:

- Increased teacher proficiency in using the mother tongue for instruction.
- Improved student engagement and comprehension in classrooms where the mother tongue was utilized.
- Recommendations for scaling the programme to other regions.

Impact: Enhanced learning outcomes for over 500 students and capacity building for 50 teachers.

2. Health Awareness Campaign Evaluation

Date: August 2023

Objective: To measure the impact of the health awareness campaign conducted across multiple communities.

Methodology: Pre- and post-campaign surveys, interviews with community members, and health screening data analysis.

Key Findings:

- Significant increase in community knowledge about preventive healthcare measures.
- High participation rate in free health screenings and educational sessions.
- Recommendations for future campaigns to include more interactive and multimedia components.

Impact: Over 2,000 community members received vital health information and screenings, leading to early detection and treatment of various health conditions.

3. Sustainable Farming Initiative Evaluation

Date: October 2023

Objective: To evaluate the effectiveness of the Sustainable Farming Initiative launched to support local farmers.

Methodology: Field visits, farmer interviews, and crop yield analysis.

Key Findings:

- Increased adoption of eco-friendly farming practices among participants.
- Notable improvement in crop yields and reduction in environmental impact.
- Recommendations for ongoing farmer support and resource provision.

Impact: Benefited 300 farmers, promoting sustainable agriculture and improved food security.

4. Women's Empowerment Programme Evaluation

Date: December 2023

Objective: To assess the impact of workshops aimed at enhancing the skills and economic opportunities for women in rural areas.

Methodology: Surveys, participant interviews, and economic impact assessments.

Key Findings:

- Improved financial literacy and business management skills among participants.
- Increased income generation opportunities and economic empowerment for women.
- Recommendations for expanding vocational training modules.

Impact: Empowered 150 women, enhancing their economic stability and community involvement.

5. Annual Education Conference Evaluation

Date: June 2023

Objective: To evaluate the outcomes of the Annual Education Conference focusing on innovative approaches to improving education.

Methodology: Feedback surveys, session evaluations, and follow-up interviews with attendees.

Key Findings:

- High satisfaction rate among participants with the conference content and format.
- Increased collaboration and networking among educators, policymakers, and community leaders.
- Recommendations for future conferences to include more hands-on workshops and practical sessions.

Impact: Fostered collaboration among 200 stakeholders, leading to new initiatives and partnerships in education.

6. Community Clean-Up Drive Evaluation

Date: May 2023

Objective: To measure the impact of the Earth Day community clean-up drive.

Methodology: Observation, participant feedback, and waste collection data analysis.

Key Findings:

- Significant reduction in community waste and increased awareness of recycling.
- High volunteer participation and community engagement.
- Recommendations for regular clean-up drives and ongoing environmental education.

Impact: Engaged over 500 volunteers, resulting in cleaner communities and increased environmental consciousness.

Conclusion

The evaluations conducted by REF highlight our commitment to transparency, accountability, and continuous improvement. By systematically assessing our programmes, we ensure that our initiatives effectively address community needs and contribute to sustainable development. Our evaluations not only demonstrate our impact but also provide valuable insights for refining our strategies and expanding our reach.
